

Marine supply. From China, to your next destination.

Spares, equipment and everyday supplies — sourced to your requirements, with the details confirmed before you order.

The supply partner behind your fleet

Loxamar connects marine purchasing needs with sources in China. A requisition, a part number or a drawing gives us a place to start.

From identifying the item to arranging inspection, packing and delivery, the working scope is confirmed with you along the way.

Marine supply, on course.

01

6 supply lines

02

9 China loading ports

03

12 frequent delivery hubs

From request to dispatch

01 Send the requirement · 发送需求

Share the item and the information you have.

02 Confirm the quotation · 确认报价

Check scope, source, documents and timing.

03 Agree the checks · 约定核验

Identify the records and packing requirements.

04 Coordinate delivery · 协调交付

Confirm the route and receiving arrangements.

What we clarify with you

Six points confirmed for each purchasing request — so the quotation can be checked, compared and trusted.

01

Requested item

所需货品

The reference, specification and assembly scope.

02

Source & condition

货源与状态

The offered source and item condition, not an assumed brand affiliation.

03

Included documents

随附资料

Required drawings, records or certificates identified in the quotation.

04

Inspection scope

核验范围

The checks and records agreed before packing.

05

Timing

时间安排

Availability, dispatch and transport estimates kept distinct.

06

Receiving arrangements

收货安排

The recipient, destination and delivery responsibilities.

Ports we work with

Loading ports across China, and worldwide delivery via international courier, air and sea freight to your specified destination.
